*Your gateway to South Africa's Top Universities*

## **Why study at Cape Town Varsity**

**A Bridge To Your Chosen Career** - For various reasons some students do not achieve the required admission criteria for their chosen careers. We at **Cape Town Varsity** provide a **solution** to raise these young minds to **optimum competency levels**, thus forming a bridge to their desired academic choice.

**Adult Part-Time Matric** - Adults working during the day now have the opportunity to complete their matric after hours.

**Matric Upgrade** - Students who wish to upgrade two or three matric subjects may also do so.

**Maths & Science** - Our staff consists of top, highly qualified Maths and Science teachers hence our high school focus will mainly be on Mathematics and the Sciences. Our specialisation in Maths and Science will empower many students to follow careers in the STEM (Science, Engineering, Technology, Mathematics) field.

**Career Focused** – We offer career focused education, training programs and qualifications designed to get you ready for the world of work. We fast-track you to your chosen career.

**Student Support** – We provide student support and individual attention to ensure successful through-put rates. We pride ourselves on our service excellence.

**Coaching and Mentoring** – Every student is assigned a mentor to deal with college life and general issues.

**Experienced Staff** – Our staff members are qualified professionals in their respective fields and possess a range of skills and expertise, including publication in international academic journals.

**Learning Approach** - Our learning approach follows a blended approach involving technology and e-learning where it focuses on practical examples in everyday life, group work and field work.

**Stepping Stone to Further Qualifications** – The qualification we provide is a stepping stone to further and higher education and the world of work.
