**It is a great pleasure to welcome you to Cape Town Varsity.**

It is an honour and a privilege to lead such an exciting and vibrant college which offers great opportunities for the young people of South Africa and students from across the African continent. It is our goal to get every student to aspire to lifelong learning and success. We offer our students the best possible opportunities to become confident young people who are able to think independently and are prepared for future challenges in an exciting and increasingly global world.

At Cape Town Varsity we pride ourselves on our caring, inclusive ethos where we set high standards and expectations for our students to achieve their ultimate best. From the moment a new Cape Town Varsity student joins our college community we want them to feel a sense of happiness and belonging as this is essential to their future success.

Situated in the southern suburbs, our campus is set in a spacious and leafy environment which creates an ambience of peace and tranquillity, conducive to creative thinking. Our dedicated staff enables us to deliver our programmes in an environment that is friendly and attuned to every specific educational need. We keep our classes and tutorial groups relatively small to create an atmosphere where students can feel relaxed and comfortable, which allows for enhanced interpersonal communication in the classroom.

**We aim for all students to be dynamic and ready to face challenges in a supportive and safe environment by:**

- Developing well rounded internationally and locally minded individuals who demonstrate resilience and determination to succeed;
- Equipping students with the skills and academic success required to access new opportunities and enhance their life opportunities;
- Consistently insisting on high expectations;
- Developing a vibrant college community that engages with all parents and relevant stakeholders.

Cape Town Varsity is designed to be both accessible and challenging for all students, irrespective of their ability. We thereby ensure success for all by providing students with the necessary skills to flourish in an ever-changing and increasingly demanding labour market, ultimately making a positive contribution to society.

Our curriculum will continue to further develop professionals in the fields of Aviation, Accounting, Entrepreneurship, Business Management, Office Administration, Robotics, Animation, Gaming, Waste Management and Travel & Tourism. We are also now introducing the Adult Part-Time matric curriculum.

Our staff consists of top, highly qualified Maths and Science teachers hence our high school focus will mainly be on Mathematics and the Sciences.

Our specialisation in Maths and Science will empower many students to follow careers in the STEM (Science, Engineering, Technology, Mathematics) field.

**I look forward to welcoming you to ensure the best standard of education and personal development.**

**Dr Fawzy Basardien - Principal**
